I am excited to apply for the Web Developer position at IBM. With a diploma in Interactive Media Design from Algonquin College and two years of hands-on experience in web development, I bring a strong foundation in front-end technologies like HTML, CSS, JavaScript, and Bootstrap, alongside a passion for visual design.

During my studies, I worked on real-world projects that allowed me to collaborate with peers in creating responsive, user-friendly websites. This experience refined my ability to think creatively and solve problems efficiently. In addition, my advanced photo editing skills with Adobe Lightroom allow me to integrate high-quality visual content that enhances the overall user experience.

I am confident that my combination of technical skills and creative expertise will make a valuable contribution to IBM. I look forward to discussing how I can support your team. I appreciate your consideration of my application.

Sincerely,

Deepanshu
